**FOR SALE: Tosaco TOAD Jet ski PWC carrier/lift - \$250** These TOAD Jet ski movers are no longer made, very useful and hard to find. I bought it last summer to move a standup jet ski from the water onto my dock but the lake bottom at my dock isn't right for that use. It's perfect for getting the jet ski from shallow water into the back of a pickup or towing the jet ski out of the water w/anything that has a hitch ball like a truck, tractor, quad or golf cart. Aluminum construction. Note that one bar needs to be reconnected. It works fine as it is though. It's great for a stand-up jet ski or smaller sit-down PWCs. I think it would be small for a 3 seat PWC though. It is at Indian Lake. Jeff Fallon (724) 272-1240 cell. 1<sup>st</sup> posting May 1, 2012.

**PROJECT SPECIALIST-INTERIORS:** Lowes, Project Specialist for Interior projects. It's a new position for Lowes and there are only 300 stores nationwide that have someone like me working there. We now have our own General Contractor who will work with me and a great team of specialists on designing and building kitchen and bath renovation projects along with many other options. I meet with the clients in the store to review their project, help them pick out materials and finishes, design their layouts and then go to their home with the General Contractor to review the scope of work. We can take care of their projects from start to finish which is really great for weekend homeowners! Also, our GC has gone through an intense process of interviews, security checks, and clearances as well as all the people he has working for him. Lowes is dedicated to making this program a success and is backing it all the way! Please stop by or call for an appointment!
